DETAILED ACTION

The amendment filed 2/2/2005 proposes amendments to the instant claims that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required.

A shortened statutory period for reply to this letter is set to expire ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this letter.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

The supplemental oath/declaration must be specific on the error. An example of a language that may contain in the supplemental oath/declaration is that the recitation of a plurality of carriers and a plurality of rate servers as claimed in claim 1 is an error since the claimed subject matter does not require the plurality and a claim including a single carrier and a single rate server would be patentable. Claim 13 replaces the plurality with a carrier and a rate server.

“Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.”
